DESCRIPTION

The CoreBay series is a rugged, reliable, versatile and durable compact Linear high bay. The specially designed optical system can effectively reduce glare and provide comfortable illumination effect. The use of reliable and durable die-cast housings contributes to longer service life and increased efficiency. The CoreBay also offers adjustable lumen output in four gears: 100%, 80%, 60%, 40%; CCT options are available in two color temperatures, 4000K and 5000K. Both are operated by a simple DIP switch. This will significantly reduce the customer's SKU and thus achieve a budget-friendly purpose.

FEATURES

- The rugged, one-piece die-cast aluminum housing features a rock-solid quality and performance.
- The LED module and driver are I-separated and extend service life through convection cooling, thermal management.
- The compact design saves labor cost and improves installation efficiency.
- Innovative contractor-friendly packaging makes installation faster.
- Light engines are available in color selectable version, the CCT can be changed to two CCTs (4000K, 5000K).
- Scalable Lumen Packages from 8,200 to 37,000 Lumens.
- Prismatic translucent lens is designed to shape the light uniformity and controls the glare light.
- Optional for aisle lens has an asymmetric distribution for aisle or rack areas.
